IRON WORKS

VULCAN IRON WORKS LIMITED

WINNIPEG MANITOBA

ESTD. 1874

THE AUTOMATIC STOKER

MODERN SOCIAL STANDARDS demand the elimination of CHORES of providing HOME HEAT The increasing EXPENSE of same also demands that maximum COMFORT be obtained at a MINIMUM COST.

DRESS and HEALTH also demand THAT THE DESIRED INTENSITY OF HEAT be maintained evenly in the home without having to take into account the daily or seasonal variations in outside temperature.

All can be obtained by installing the AUTOMATIC STOKER as illustrated here and manufactured by the VULCAN IRON WORKS LIMITED in Winnipeg.

Further- if your heating system is sluggish or too small, the AUTOMATIC STOKER will also improve this

There is an AUTOMATIC STOKER for every class of heating HOT AIR, HOT WATER or STEAM BOILER for the smallest home or the largest Apartment Block

QUICKLY INSTALLED AT ANY SEASON

MADE IN WINNIPEG BY WINNIPEG LABOR

OTHER PRODUCTS MANUFACTURED BY THE VULCAN IRON WORKS LIMITED ARE BOILERS, TANKS, SMOKE STACKS STRUCTURAL STEEL, STAIRS AND FIRE ESCAPES, ELEVATING MACHINERY MINING EQUIPMENT: CAGES, SKIPS, CARS. ORE BUCKETS. GRINDING BALLS. GRAIN ELEVATING MACHINERY, GRAIN DUMPS CASTINGS IN IRON AND STEEL AND ALLOYS

Provincial Officials and Departments	273
Special Advertising Department	1-36
Street Directory	281

Introductory

The present volume for the year 1939 is the sixty-first edition of Henderson's Directory of Winnipeg, the first being published in 1878

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included on pages 256 to 260 and contains data concerning City, Provincial and Federal Government offices, commercial organizations and military organizations

THE STREET AND AVENUE GUIDE gives the names of all streets and avenues arranged alphabetically, showing the location, number on the street and name of the occupant. The intersecting streets are shown in the order that they come

The BUYERS GUIDE occupies pages 1 to 88. This section of the Directory printed on coloured paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A careful perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements primarily, however, but rather are reference advertising at its best. The need for this kind of information on hand is very great and the general appreciation of this need is evidenced by the liberal patronage the Directory enjoys in many and various lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations occupies pages 1 to 3

THE CLASSIFIED BUSINESS DIRECTORY at the back of the Book exhibits the various manufacturing, mercantile and professional names grouped under headings appropriate to the class of industry or profession followed.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial and as an educational centre. The Directory endeavours to reflect anything that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country the publishers have placed copies of this issue of the directory in the directory libraries where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for business men the country over realize that the City Directory represents the community as it really is

POPULATION GREATER WINNIPEG 313,230

The Directory estimate of population is based on the actual number of individuals' names in the alphabetical section of the Directory with due allowance for children and for women whose names are not listed. The Winnipeg Directory covers considerable territory beyond but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED

January 1939

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory

279 Garry Street - Winnipeg

City of Winnipeg

City Seal

The above is a fac-simile of the City Seal adopted by Council 1st, 1874, the motto of wh Commerce, Prudence, Industry significance of the emblazonry there on may be described as follows

The Buffalo, the hardy fearless nomadic monarch of the plains land of original possession and now away where the City of Winnipeg now stands

The Engine, the civilizing mechanism of man's ingenuity, d spaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the of the Province of Manitoba C

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy, nipee," water

Winnipeg is situated in Latitude 49° 54' N., Longitude 97° 05' W., confluence of the Red and

of Lake Winnipeg and 60 miles north of the boundary line between Canada and the United States of Amer-

an altitude of 760 feet above the seaboard level of New York

reached a point just across the

way from the East With

Winnipeg is now the greatest grain centre on the American continent, and the financial, commercial, wholesale and manufacturing centre of the

physical position, its very complete railway facilities, with branches reaching out in every direction, it affords great possibilities for trade in the provinces and the Northwest and an inducement for the establishment of manufacturing and other industries. In addition to the many other advantages Winnipeg supplies, through its Municipal Hydro Electric system, the cheapest electric power of any city in America. The new soft water supply is adequate for the needs of a city of one million in-

The Council is composed of a Mayor and eighteen aldermen. The Mayor is elected every two years from a vote of the entire City Three alder-

Main Library—Carnegie Library building, on William Avenue, between Dagmar and Ellen Streets. A F Jamieson, Librarian. Telephone Office, 86 541 Refer nce, 86 531, Circulation and Branch Station, 86 531

PUBLIC PARKS

There are 33 public parks and squares in Winnipeg with a total area of 1,035 acres. These, with

located within the city limits, or close thereto, so as to afford open

easily accessible to the citizens.

HUDSON'S BAY COMPANY HISTORICAL EXHIBIT

The Historical Exhibit of the Hud-

one of the finest private of Western and Arctic material in Canada. The visitor, on entering comes upon a moving ex-

first comes an Indian courier of 1670, next a sailor of the period, then

a sea. From there he passes into the main body of the room which is divided into sections.

second section deals with the early forts on Hudson's Bay, and depicts the struggles with the French, as well as the first explorations into the interior. This era is terminated by the sale of trade goods referred to above. After that comes the North West Co. section, then the Selkirk ent, and then union with the and the reign of

Sir George Simpson

This begins the fifty-year period of expansion during which the Company rose to its greatest power, and the story widens out into the vast territorial divisions where it explored and traded and ruled. There are the Pacific Coast, Mackenzie Area, Arctic and Labrador, and Plains section

Bay Company

Native handicrafts here occupy a good deal of the display space, to provide the necessary attraction and interest But interspersed among them are articles of trade, showing how goods were substituted for por- for fu

of stone and bone and ivory.

The Plains section is naturally the most colourful, with its display bright beadwork, and an especially striking note has been added by the erection of a twelve-foot Stoney teepee in one corner This is backed

famous Blackfoot

Vancouver for the Company's post at Yerba Buena, where San Francisco is now. There is a large section devoted to Transportation, including a dozen ship models, both sail and steam, a birch bark canoe, a dog carriole, and the nameboard from the S.S. Beaver," first steamship on the Pacific Ocean while innumerable pictures show the various methods of transportation past and present, by water, land, and air.

Next comes Life in the Posts, with a case of utensils, one of books, one of documents, one of small arms, and one of long arms. The geographical range covered by this section is immense. For instance, there is a lock and key from a post in Labrador, and a bell from a post in Alaska, a letter from Sir James Douglas at Fort Victoria, and a ledger from York Factory, a buffalo gun from the Plains, and a broadsword from Fort Resolution.

There follows the After 1870 section, illustrating the transfer of the jurisdiction of the Northwest to the newly-formed Dominion of Canada, the consequent troubles with Riel and his followers and the ensuing Government treaties with the Indians, in which HBC men acted as the indispensable go-betweens and peacemakers.

After that comes Fort Garry and Winnipeg, depicting the growth of the latter out of the former. And finally the 20th Century section, bringing the story up to date.

The last exhibit of all is a replica of a northern trading store. This [illegible] display window for the [illegible] of the newest Hudson Bay Company [illegible]

Thus the concluding exhibit not only [illegible] the Company's [illegible] but also strikes a final note of life and activity, very different from the air of death and stagnation so often associated with the old-style museum.

ABBREVIATIONS—General

ABBREVIATIONS OF GIVEN NAMES

HENDERSON'S
Winnipeg
Streets and Avenues
1939

This book is prepared and issued from time to time as required to be a companion Directory.

AVENUES run East and West and are numbered under 200 East of Main Street and from 200 to 800, West of Princess 200 and upwards.

STREETS running North and South are numbered from the Assiniboine River as a base Northwards, and again from Notre Dame as a base Northwards.

The word street is always implied.

NOTICE

✦ The Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner

✚ This Symbol indicates that a telephone is located at this number on the street.

This new Home Owners, Tenants and Phone Directory is compiled from information taken on a special house-to-house canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from someone at each residence. Where occupants have been absent, the "owner" information has been left out

IRON WORKS

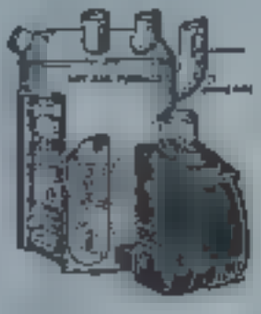

VULCAN IRON WORKS LIMITED

WINNIPEG MANITOBA

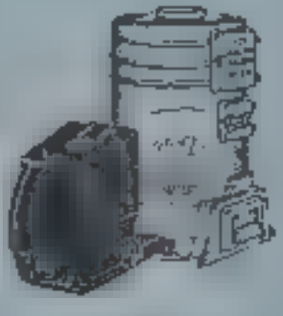

ESTD. 1874

THE AUTOMATIC STOKER

MODERN SOCIAL STANDARDS demand the elimination of CHORES of providing HOME HEAT. The increasing EXPENSE of same also demands that maximum COMFORT be obtained at a MINIMUM COST.

DRESS and HEALTH also demand THAT THE DESIRED INTENSITY OF HEAT be maintained evenly in the home without having to take into account the daily or seasonal variations in outside temperature.

All can be obtained by installing the AUTOMATIC STOKER as illustrated here and manufactured by the VULCAN IRON WORKS LIMITED in Winnipeg

Further: if your heating system is sluggish or too small, the AUTOMATIC STOKER will also improve this.

There is an AUTOMATIC STOKER for every class of heating HOT-AIR, HOT WATER or STEAM BOILER—for the smallest home or the largest Apartment Block.

QUICKLY INSTALLED AT ANY SEASON

MADE IN WINNIPEG BY WINNIPEG LABOR

OTHER PRODUCTS MANUFACTURED BY THE VULCAN IRON WORKS LIMITED ARE:—BOILERS, TANKS, SMOKE STACKS, STRUCTURAL STEEL, STAIRS AND FIRE ESCAPES, ELEVATING MACHINERY, MINING EQUIPMENT: CAGES, SKIPS, CARS, ORE BUCKETS, GRINDING BALLS. GRAIN ELEVATING MACHINERY, GRAIN DUMPS. CASTINGS IN IRON AND STEEL AND ALLOYS
